European Journal of Operational Research 30 (1987) 359–360
North-Holland

Contents Volume 30

Special Issue on OR in Banking

1 Eurobanking—Preface
R. Park
3 Editorial
J. Telgen and M. Scalzo
6 Development of the variable rate preferred stock market
L.P. Mavrides
13 A dynamic bank portfolio planning model with multiple scenarios, multiple goals and changing priorities
A. Korhonen
24 Strategies simulation in an aggregate bank model
M. Bedoni
30 Besmod: A strategic balance sheet simulation model
N. Grubmann
35 Re-assignment and consolidation of credit authorizations
B.G. Leibundgut
42 Management of banks' international lending: Country risk analysis and country exposure measurement and control
E. Pietrabissa
48 Branch planning through decentralized marketing and regional analysis studies
G.O. Eliopoulos and A.K. Kouzelis
55 The banking system in Sicily: A territorial analysis for planning and marketing purposes
A. Sevosi and M. Troiani
68 Factory analysis and classification methods: An application to the study of corporate custom
L. Martin and J. Payet
77 Visual interactive modelling and manpower planning
J.N. Billington
85 Evaluating the interest aspect of cash management
V. van Gijlswijk
89 On the determinants of ATM performance
A. Kouzelis

Special Issues on Modelling Complex Systems I, II

95 Editorial
P.M. Allen, W.C. Schieve and R.N. Adams
97 Exploring complexity
I. Prigogine
104 Nonlinearity in high-order models of social systems
J.W. Forrester
110 The epistemology of complex systems
K.E. Boulding
117 Complexity, organization and uncertainty
B.J. West and J. Salk
129 On complex systems
R. Rosen
135 System similarities and the existence of natural laws
J. Casti
139 Simplifying the complex: The paradigms of ecological function and structure
C.S. Holling
147 Modelling complex human systems: A fisheries example
P.M. Allen and J.M. McGlade
168 Error, communication and learning in ant societies
J.L. Deneubourg, S. Aron, S. Goss and J.M. Pasteels

0377-2217/87/$3.50 © 1987, Elsevier Science Publishers B.V. (North-Holland)

173 Growth and development: Variational principles reconsidered
R.E. Ulanowicz
179 Problems in the modelling of socio-cultural systems
A.C. Renfrew
193 Some observations on social evolution from an energy structure approach
R.N. Adams
203 Historical systems as complex systems
I. Wallerstein
208 Organizing the nation: Revolution and the modern state
R. Artigiani
211 A critique of dissipative structures in the human realm
P. Gould
222 Comments on the paper by P. Gould
P.M. Allen

223 The analysis of popular collective action
C. Tilly
230 Foraging society organization: A simple model of a complex transition
D.W. Read
237 A production system model of hunter-gatherer resource scheduling adaptations
R.G. Reynolds
240 Modelling decision making and learning by low latitude hunter gatherers
S.J. Mithen
243 Simulation modelling in archaeology: Reflections and trends
J.A. Bell
246 Origin of division of labor and a stochastic mechanism of differentiation
P. Chen
251 The evolving economy
R.H. Day
258 Macroeconomic dynamics and econometric modelling
S. Mittnik
262 Loss of control and returns to scale in organizations
M.J. Beckmann
267 Chance-constrained activity analysis
S. Thore
270 The Laurent series approach to structural modeling
W.A. Barnett and Y.W. Lee
280 Rapprochement of artificial intelligence and dynamics
M. Conrad
291 Toward a classification of complex systems
R.W. Crosby
294 Path-dependent processes and the emergence of macrostructure
W.B. Arthur, Y.M. Ermoliev and Y.M. Kaniovski
304 Interaction of trip decisions and traffic systems dynamics
H.S. Mahmassani and R. Herman
318 Dynamic network equilibrium: Some comments
M. Ben-Akiva, A. de Palma and P. Kanaroglou
321 Bifurcation and disaggregation in urban/regional spatial modelling: A technical note
Y. Chan and P. Yi
327 An analysis of the efficacy and efficiency of hierarchical procedures for computing trajectories over complex surfaces
T.R. Smith and R.E. Parker
339 Resource allocation in a large decentralized enterprise
D.C. Gazis
344 Cellular dynamics: How individual decisions lead to global urban change
H. Coucleclis
347 Time behavior of stressed nonhierarchical networks
C.M. Lockhart and M.R. Garzia
356 Other than chance and necessity; intention and purpose by design
H.G. Nelson
359 Contents Volume 30
